PRO-MIC PDL Desktop Fanless Workstation

Overview:

The PRO-MIC PDL Desktop is a fanless workstation for use with a PRO-MIC system and electronics package.

Solid-State

The PRO-MIC PDL Desktop has no moving parts for increased durability and longevity.

Ruggedness

The PDL Desktop has an all-metal case and no moving parts, allowing it to withstand a rough industrial environment. With no vent holes or fans, you don't need to worry about dust or dirt getting inside the case. The system can safely operate in temperatures in excess of 120 degrees Fahrenheit. Running off an SSD, there are no mechanical parts.

Compact Size

The PDL Desktop is incredibly compact and lightweight, measuring just 7.25"x8.00"x1.25" (18.415cm x 20.320cm x 3.175cm), and it weighs only 2.8lbs (1.27kg).

Wireless

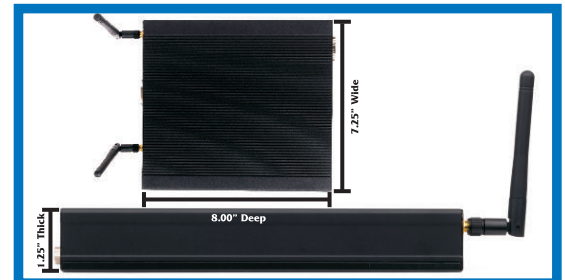

The PDL Desktop features both WiFi 802.11n and Bluetooth 3.0 connectivity.
